VIGNOBLES  
**EDONIS**  
LE VAL DE LOIRE ÉVEILLE VOS SENS

**TERROIR :** It has clay and flint soil, whereas the steeper slopes have more siliceous soil with clay that is ideal for Sauvignon blanc.

**WINEMAKING :** The grapes are picked during the coolest part of the day and pressed slowly and gradually. Cold fermentation (16-18°C) follows a short maceration on the must deposit to lock in a maximum number of aromas.

**AGEING :** The wine is aged on the lees before bottling.

**VARIETALS :** Sauvignon 100%

**SERVING :** Served well-chilled (8-10°C).

**FOOD PAIRINGS :** This wine is a treat as an aperitif with nibbles, as well as as an accompaniment to delicatessen meats, salads, shrimp, quiches, goat's cheeses, and fruit salad.
