## Haut-Poitou Sauvignon Blanc "Le Bois de la Tour"

**LOCATION:** The vines are located in the Poitiers area, on the Neuville Plain, with soil dating back to the Jurassic period.

**TERROIR**: Although the topography is fairly flat, the vines grow on small rises consisting largely of limestone rocks. The superb clay-limestone soil is conducive to growing excellent ripe grapes.

**WINEMAKING:** Direct pressing. After the racking of the must at low temperature, fermentation starts during 12 to 14 days at 18°C maximum, to preserve all the aromas.

**AGEING**: Aged on fine lees before bottling.

VARIETALS: Sauvignon blanc 100%

**SERVING:** Served well-chilled at 10°C.

FOOD PAIRINGS: It is ideal with fishes, seafood, ham and sausage or as an

aperitif.
