## Saumur Blanc "Le Bois Doré"

**LOCATION:** The Saumur vineyards cover over 800 hectares on the south bank of the Loire River. The key feature of this area is its clay limestone soil: this soft, white stone, known as tufa, used to build the Loire Valley Castles, promotes good root development in the vines and ensures a moderate water supply.

**WINEMAKING:** Destemming and light skin contact, followed by pneumatic pressing. Fermented in temperature-controlled vats and bottled in the tufa cellars, where the wine continues ageing, protected from light and temperature variations.

**VARIETALS:** Chenin ou chenin blanc 100%

SERVING: Serve chilled (8-10°C).

**FOOD PAIRINGS**: An accompaniment to fish and seafood, meat dishes, cheeses (goat's cheeses) and fruit tarts (lemon, apricot, etc.).
